Re: Elgin Street Planning Study
264-276 Elgin

Dear Sir:

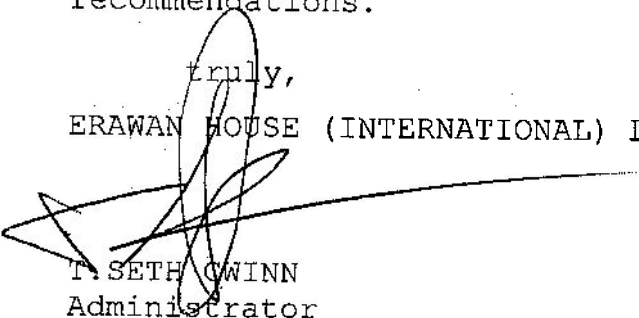

Further to our letter of yesterday, dated June 21, 2000, and our participation in the Elgin Street study, though we are much in favor of the proposals that will seek to improve Elgin Street rather than detract from it, we reiterate that we are opposed to any restrictions or re-zoning that will jeopardize the viability of the full use and enjoyment of our property.

We have said, time and again, that we were against a B.I.A. for Elgin Street, traffic calming measures that would impede traffic to and from Elgin Street, sidewalk vendors, and further restrictions to delivery vehicles.

We appreciate having had the opportunity to participate in the Elgin Street Planning Study and to voice our concerns and recommendations.

truly,

ERAWAN HOUSE (INTERNATIONAL) LIMITED
